### Fellow Livestock Breeders:

It has been my pleasure to have been working very closely with the Hollyshire cattle operation for the past year. It has been satisfying to see cattle of this quality assembled at Hollyshire. I feel that the Hollyshire breeding program will meet the demands of the future and I was impressed with Mr. Mott's comments the day we selected the sale cattle: "You can have the very best we have in this first annual sale as we want our cattle to be widely accepted."

As you know, at Hollyshire they have two breeds of cattle rather than one. The second breed, Maine-Anjou, was selected by Hollyshire because of their very similar parentage. The Maine-Anjou breed was founded from the same set of 100 cattle that founded the Shorthorn breed. They are two breeds that we feel compliment each other. Due to the fact that the Maine-Anjou is a young breed at Hollyshire, Mr. Mott is offering a \$1,000 buy-back offer for the heifer calves. I feel that this is a very rare opportunity for the young cattleman wanting to start in the purebred Shorthorn business to possibly have a very financially sound first two years.

I would like to urge everyone who is interested in the Shorthorn, Polled Shorthorn or Maine-Anjou cattle to attend the Hawaiian gathering Friday evening at 6:30 p.m. in the Governor's Gardens, as one of the most rewarding things about the purebred cattle business is the fellowship enjoyed by all participating breeders.

In closing I would like to add that I am sure that Hollyshire has done everything in their power to try to present you the best possible offering with a very good health status and they will sell their cattle just as they are represented.

Looking forward to seeing you on sale day.

Sincerely,

*Don Cagwin*  
Donald E. Cagwin

**RICHWOOD F M LAVENDER** — A deeply polled bred female selling bred June 21, 1972, to the 2,600 lbs. Maine Anjou sire Cunic. This female could be carrying another polled half-blood Maine Anjou heifer calf.

The next 11 females have been selected from the Frank Haumont herd, Broken Bow, Nebraska. They are 11 females that are very closely bred, and for those of you who have been to Frank Haumont's ranch, you know that Frank has a very different and unique breeding program. He has one of the only herds in the United States that have been registered both milking and beef. They offer two important traits: size and frame, and milking ability. These are the reasons that Hollyshire has selected these females to be mated with Shadybrook Ranger 70th. We believe the result of this mating will produce Shorthorns with the size and frame and muscling and beef qualities that Shorthorns and polled Shorthorns must have. We feel that this will be evident when you inspect the calves on sale day.

# Hollyshire

Dear Friends,

Welcome to the First Hollyshire Annual Sale. The sale is a complete offering of the finest Shorthorns (PS) and Maine-Anjou animals possible. All arrangements have been made to insure you a pleasant and beneficial trip to Hollyshire.

A wide range of prime cattle is available. All breeding is focused on future improvements and increased profit margins. You will find animals with built-in markets guaranteed by Hollyshire on a buy-back offer. We want you to be satisfied with your purchases.

Before the sale we cordially invite you to be our guest at a cattlemen's party in Hawaiian style at the Governor's Gardens. We hope you will find the party surpassed only by the cattle at the sale.

Looking forward to seeing you at the sale.

With warm regards,

*Harding Mott, Jr.*  
Harding Mott, Jr.

Dear Shorthorn Breeders,

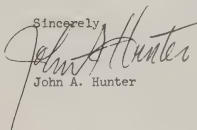

Welcome to the first annual Hollyshire sale. Our cow herd is made up of quality females selected by Mr. Mott from some of the nation's top herds. The sale is featuring many champions from major shows throughout the United States and Canada. The best of blood lines are represented. Additions of these selections, plus the natural increase from our own breeding program, have greatly strengthened the quality of our herd.

Also, we are offering an excellent group of crossbred calves, Maine-Anjou out of Angus-Charolais cows. They are a group of well-muscled calves with structural correctness---a top group hard to find anywhere.

We now have reached the point where we can present to interested buyers an excellent choice of top quality animals. We have gone deeply into our herd to make the sale attractive to the most discriminating cattlemen.

Be sith us sale day!

Sincerely,

John A. Hunter

Dear Buyers,

I have been in attendance of the Hollyshire beef herd for over a year on a herd health program. There has been no contagious or infectious disease during this time. All animals have been vaccinated for IER and bovine influenza.

Sincerely,

Merrill Brownfelter, D.V.M.
